DETAILED ACTION

Response to Amendment

1. The reply filed on 10/12/00 is not fully responsive to the prior Office action and the amendment to the claims has not been entered, because the amendment requests the addition of more than five words in at least one claim. See 37 CFR 1.121(a)(2)(i) below:

(i) Instructions for insertions and deletions: A claim may be amended by specifying only the exact matter to be deleted or inserted by an amendment and the precise point where the deletion or insertion is to be made, where the changes are limited to:

(A) Deletions and/or

(B) The addition of no more than five (5) words in any one claim; or

The amendment to the claims should be made in accordance with 37

CFR 1.121(a)(2)(ii) which states:

(ii) Claim cancellation or rewriting: A claim may be amended by directions to cancel the claim or by rewriting such claim with underlining below the matter added and brackets around the matter deleted. The rewriting of a claim in this form will be construed as directing the deletion of the previous version of that claim. If a previously rewritten claim is again rewritten, underlining and bracketing will be applied relative to the previous version of the claim, with the parenthetical expression "twice amended," "three times amended," etc., following the original claim number. The original claim number followed by that parenthetical expression must be used for the rewritten claim. No interlineations or deletions of any prior amendment may appear in the currently submitted version of the claim. A claim canceled by amendment (not deleted and rewritten) can be reinstated only by a subsequent amendment presenting the claim as a new claim with a new claim number.

2. The reply filed on 10/12/00 is not fully responsive to the prior Office Action because: amendment B, paper 13, filed 6/7/00, was not entered, see par. 1, line 2, of the last office action, mailed 8/15/00, yet applicant's response appears to presume that amendment B was entered.

A. If examiner assumes that amendment B was not entered, then amended claims 33 and 41 in amendment C, filed 10/12/00, fail to comply with the above cited

Art Unit: 2823

regulations by not including all the deletions and additions from the original claims of amendment A, filed 3/20/98. Also claim 41 could not have been amended twice.

B. If examiner assumes that amendment B should be entered, without applicant's authorization, then examiner's action could be construed as improper, resulting in an undue burden to examiner to redo the previous action. In addition, entering amendment B would also fail to comply with the above cited regulations by not including all the deletions and additions from the original claims of amendment A, filed 3/20/98. Further, claim 41 would have been canceled in amendment B, and therefore, could not be pending and amended, as stated in amendment C.

3. Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

4. The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.
